

BECOMING A HUNTER BRUTE ...

AS A LEVEL 1 CHARACTER

- Gain all the traits in the Core Hunter Brute Traits table.
- Gain the Hunter Brute's level 1 features, which are listed in the Hunter Brute Features table.

FIGHTER CLASS FEATURES

As a Fighter, you gain the following class features when you reach the specified Fighter levels. These features are listed on the Fighter Features table.

LEVEL 1: FIGHTING STYLE

You have honed your martial prowess and gain a Fighting Style feat of your choice (see chapter 4). Whenever you gain a Fighter level, you can replace the feat you chose with a different Fighting Style feat.

LEVEL 1: WEAPON MASTERY

Your training with weapons allows you to use the mastery properties of three kinds of Simple or Martial weapons of your choice. Whenever you finish a Long Rest, you can practice weapon drills and change one of those weapon choices.

When you reach certain Fighter levels, you gain the ability to use the mastery properties of more kinds of weapons, as shown in the Weapon Mastery column of the Hunter Brute Features table.

LEVEL 2: ACTION SURGE

You can push yourself beyond your normal limits for a moment. On your turn, you can take one additional action.

Once you use this feature, you can't do so again until you finish a Short or Long Rest. Starting at level 17, you can use it twice before a rest but only once on a turn.

LEVEL 2: REFUSE THE BLEEDING

When you take damage, you may use your reaction and expend one use of Refuse the Bleeding to reduce the incoming damage by 1d10 + your Hunter Brute level.

You regain one expended use when you finish a short rest, and you regain all expended uses when you finish a long rest.

LEVEL 3: HUNTER BRUTE SUBCLASS

You gain a Hunter Brute subclass of your choice. The Battle Master or the Champion subclasses are detailed after this class's description. A subclass is a specialization that grants you features at certain Hunter Brute levels.

LEVEL 4: ABILITY SCORE IMPROVEMENT

You gain the Ability Score Improvement feat (see chapter 5) or another feat of your choice for which you qualify. You gain this feature again at Hunter Brute levels 6, 8, 12, 14, and 16.

LEVEL 5: EXTRA ATTACK

You can attack twice instead of once whenever you take the Attack action on your turn.

LEVEL 9: WAR MASTER

When you attack with a weapon whose mastery property you can use, you can replace that property with the Push, Sap, or Slow property for that attack.

LEVEL 11: TWO EXTRA ATTACKS

You can attack three times instead of once whenever you take the Attack action on your turn.

LEVEL 13: STUDIED ATTACKS

You study your opponents and learn from each attack you make. If you make an attack roll against a creature and miss, you have Advantage on your next attack roll against that creature before the end of your next turn.

LEVEL 19: EPIC BOON

You gain an Epic Boon feat (see chapter 4) or another feat of your choice for which you qualify.

LEVEL 20: THREE EXTRA ATTACKS

You can attack four times instead of once whenever you take the Attack action on your turn.

HUNTER BRUTE SUBCLASSES

A Hunter Brute subclass is a specialization that grants you features at certain Hunter Brute levels, as specified in the subclass. This section presents the Battle Master and Champion subclasses.

BATTLE MASTER

Master Sophisticated Battle Maneuvers

Battle Masters are students of the art of battle. The most accomplished Battle Masters are well-rounded figures who use their carefully honed combat skills.

LEVEL 3: COMBAT SUPERIORITY

Your experience on the battlefield has refined your fighting techniques. You learn maneuvers that are fueled by special dice called Superiority Dice.

Maneuvers. You learn three maneuvers of your choice from the "Maneuver Options" section later in this subclass's description. Many maneuvers enhance an attack in some way. You can use only one maneuver per attack.

You learn two additional maneuvers of your choice when you reach Hunter Brute levels 7, 10, and 15.

Each time you learn new maneuvers, you can also replace one maneuver you know with a different one.

Superiority Dice. You have four Superiority Dice, which are d8s. A Superiority Die is expended when you use it. You regain all expended Superiority Dice when you finish a Short or Long Rest. You gain an additional Superiority Die when you reach Hunter Brute levels 7 (five dice total) and 15 (six dice total).

Saving Throws. If a maneuver requires a saving throw, the DC equals 8 plus your Strength or Dexterity modifier (your choice) and Proficiency Bonus.

LEVEL 7: STUDENT OF WAR

You gain proficiency in one skill of your choice from the skills available to Hunter Brutes at level 1.

LEVEL 10: IMPROVED COMBAT SUPERIORITY

Your Superiority Die becomes a d10.

LEVEL 15: RELENTLESS

Once per turn, when you use a maneuver, you can roll 1d8 and use the number rolled instead of expending a Superiority Die.

LEVEL 18: ULTIMATE COMBAT SUPERIORITY

Your Superiority Die becomes a d12.

MANEUVER OPTIONS

The maneuvers are presented here in alphabetical order.

Bait and Switch. When you're within 5 feet of a creature on your turn, you can expend one Superiority Die and switch places with that creature, provided you spend at least 5 feet of movement and the creature is willing and doesn't have the Incapacitated condition. This movement doesn't provoke Opportunity Attacks.

Roll the Superiority Die. Until the start of your next turn, you or the other creature (your choice) gains a bonus to AC equal to the number rolled.

Disarming Attack. When you hit a creature with an attack roll, you can expend one Superiority Die to attempt to disarm the target. Add the Superiority Die roll to the attack's damage roll. The target must succeed on a Strength saving throw or drop one object of your choice that it's holding, with the object landing in its space.

Distracting Strike. When you hit a creature with an attack roll, you can expend one Superiority Die to distract the target. Add the Superiority Die roll to the attack's damage roll. The next attack roll against the target by an attacker other than you has Advantage if the attack is made before the start of your next turn.

Evasive Footwork. As a Bonus Action, you can expend one Superiority Die and take the Disengage action. You also roll the die and add the number rolled to your AC until the start of your next turn.

Feinting Attack. As a Bonus Action, you can expend one Superiority Die to feint, choosing one creature within 5 feet of yourself as your target.

You have Advantage on your next attack roll against that target this turn. If that attack hits, add the Superiority Die to the attack's damage roll.

Goaded Attack. When you hit a creature with an attack roll, you can expend one Superiority Die to attempt to goad the target into attacking you. Add the Superiority Die to the attack's damage roll. The target must succeed on a Wisdom saving throw or have Disadvantage on attack rolls against targets other than you until the end of your next turn.

Lunging Attack. As a Bonus Action, you can expend one Superiority Die and take the Dash action. If you move at least 5 feet in a straight line immediately before hitting with a melee attack as part of the Attack action on this turn, you can add the Superiority Die to the attack's damage roll.

Maneuvering Attack. When you hit a creature with an attack roll, you can expend one Superiority Die to maneuver one of your comrades into another position. Add the Superiority Die roll to the attack's damage roll, and choose a willing creature who can see or hear you. That creature can use its Reaction to move up to half its Speed without provoking an Opportunity Attack from the target of your attack.

Menacing Attack. When you hit a creature with an attack roll, you can expend one Superiority Die to attempt to frighten the target. Add the Superiority Die to the attack's damage roll. The target must succeed on a Wisdom saving throw or have the Frightened condition until the end of your next turn.

Precision Attack. When you miss with an attack roll, you can expend one Superiority Die, roll that die, and add it to the attack roll, potentially causing the attack to hit.

Pushing Attack. When you hit a creature with an attack roll using a weapon or an Unarmed Strike, you can expend one Superiority Die to attempt to drive the target back. Add the Superiority Die to the attack's damage roll. If the target is Large or smaller, it must succeed on a Strength saving throw or be pushed up to 15 feet directly away from you.

Riposte. When a creature misses you with a melee attack roll, you can take a Reaction and expend one Superiority Die to make a melee attack roll with a weapon or an Unarmed Strike against the creature. If you hit, add the Superiority Die to the attack's damage.

Sweeping Attack. When you hit a creature with a melee attack roll using a weapon or an Unarmed Strike, you can expend one Superiority Die to attempt to damage another creature. Choose another creature within 5 feet of the original target and within your reach. If the original attack roll would hit the second creature, it takes damage equal to the number you roll on your Superiority Die. The damage is of the same type dealt by the original attack.

Trip Attack. When you hit a creature with an attack roll using a weapon or an Unarmed Strike, you can expend one Superiority Die and add the die to the attack's damage roll. If the target is Large or smaller, it must succeed on a Strength saving throw or have the Prone condition.
