

BECOMING A HUNTER WARDEN ...

AS A LEVEL 1 CHARACTER

- Gain all the traits in the Core Hunter Warden Traits table.
- Gain the Hunter Warden's level 1 features, which are listed in the Hunter Warden Features table.

LEVEL 1: BANDS DIRECTIVE

You read the battlefield with a commander's eye, identifying openings, weaknesses, and moments of hesitation. Through sharp orders and tactical insight, you rally your hunter band and guide them toward decisive action.

This command is represented by your Bands Directive die, which is a d6.

Using Bands Directive. As a Bonus Action, you can choose one creature other than yourself within 60 feet of you that can see or hear you. That creature gains one of your Bands Directive dice.

A creature can have only one Bands Directive die at a time.

Once, when the creature fails a d20 Test, it can roll the Bands Directive die and add the number rolled to the d20, potentially turning the failure into a success.

The Bands Directive die is expended when it is rolled or after a long or short rest.

Number of Uses. You can grant a Bands Directive die a number of times equal to your Wisdom modifier, minimum of once. You regain all expended uses when you finish a Long Rest.

At Higher Levels. Your Bands Directive die changes when you reach certain Hunter Warden levels, as shown in the Bands Directive Die column of the Hunter Warden Features table.

The die becomes a d8 at level 5, a d10 at level 10, and a d12 at level 15.

LEVEL 1: FEEL YOUR ENEMY

As a Bonus Action, you can discern certain strengths of a creature you can see within 30 feet of yourself; you can tell the creature's Challenge Rating (CR) or Level (Lvl.) Once you use this feature, you can't do so again until you finish a Short Rest or Long Rest. You can also restore a use of the feature by expending one Bands Directive die (no action required).

LEVEL 2: TACTICAL MIND

You have a mind for tactics on and off the battlefield. When you fail an ability check, you can expend a use tactical mind to push yourself toward success. Rather than giving a Bands Directive die to a player you can roll it yourself and add the number rolled to the ability check, potentially turning it into a success. The Bands Directive die is expended when it is rolled.

LEVEL 2: EXPERTISE

You gain Expertise (see the rules glossary) in two of your skill proficiencies of your choice.

Performance and Persuasion are recommended if you have proficiency in them.

At Hunter Warden level 9, you gain Expertise in two more of your skill proficiencies of your choice.

LEVEL 2: EXPERIENCE

You can add half your Proficiency Bonus (round down) to any ability check you make that uses a skill proficiency you lack and that doesn't otherwise use your Proficiency Bonus.

For example, if you make a Strength (Athletics) check and lack Athletics proficiency, you can add half your Proficiency Bonus to the check.

LEVEL 3: HUNTER WARDEN SUBCLASS

You gain a Hunter Warden subclass of your choice. The Commander or the Warbringer subclasses are detailed after this class's description. A subclass is a specialization that grants you features at certain Hunter Warden levels.

LEVEL 4: ABILITY SCORE IMPROVEMENT

You gain the Ability Score Improvement feat (see chapter 4) or another feat of your choice for which you qualify. You gain this feature again at Hunter Warden levels 8, 12, and 16.

LEVEL 5: EFFECTIVENESS

You now regain all your expended uses of Bands Directive when you finish a Short or Long Rest. In addition, you now have uses of Bands Directive die equal to your Wisdom modifier x 2

LEVEL 7: KNOW YOUR ENEMY

As a Bonus Action, you can discern certain strengths and weaknesses of a creature you can see within 30 feet of yourself; you know whether that creature has any Immunities, Resistances, or Vulnerabilities, and if the creature has any, you know what they are.

Once you use this feature, you can't do so again until you finish a Long Rest. You can also restore a use of the feature by expending one Bands Directive die (no action required).

LEVEL 7: COUNTER

You have seen it all before. You know how to disrupt mind-influencing effects. If you or a creature within 30 feet of you fails a saving throw against an effect that applies the Charmed or Frightened condition, you can take a Reaction to cause the save to be rerolled, and the new roll has Advantage.

LEVEL 9: INDOMITABLE

If you fail a saving throw, you can reroll it with a bonus equal to your Hunter Warden level. You must use the new roll, and you can't use this feature again until you finish a Long Rest. You can use this feature twice before a Long Rest starting at level 13 and three times before a Long Rest starting at level 17.

LEVEL 10: WEAPON MASTERY

Your training with weapons allows you to use the mastery properties of three kinds of Simple or Martial Melee weapons of your choice. Whenever you finish a Long Rest, you can practice weapon drills and change one of those weapon choices.

LEVEL 11: SUPERIOR EFFECTIVENESS

You now have uses of Bands Directive die equal to your Wisdom modifier x 3

LEVEL 13: EXPECT YOUR ENEMY

As a Bonus Action, you can discern what a creature you can see within 30 feet of yourself intends to do on its next turn; your DM has to tell you (if able) what the creature intends to do on its turn including first movement and first action if any. If the creature intends to use an action the DM also has to tell you (if able) all available info about that specific first action. Once you use this feature, you can't do so again until you finish a Long Rest. You can also restore a use of the feature by expending one Bands Directive die (no action required).

LEVEL 15: CALM BAND

During a short or long rest you and the other creatures that has a Bands Directive die may roll that die in addition to their Sanity die.

LEVEL 18: SUPERIOR DIRECTIVE

When you roll Initiative, you regain expended uses of Bands Directive until you have two if you have fewer than that.

LEVEL 19: EPIC BOON

You gain an Epic Boon feat (see chapter 4) or another feat of your choice for which you qualify.

LEVEL 20: PRESENCE OF POWER

Your very presence can be overwhelming. You have mastered words that ring with power in your enemies' ears: as an action you can expend a Bands Directive die to command a creature within 30ft of you that can hear and see you to forfeit their next turn. This can not be used on the same creature twice.

COMMANDER

Text

Text.

LEVEL 3: STUDIED ENEMY

You can spend an action to study your opponents and learn from each attack they make. One creature other than yourself within 60 feet of you that can see or hear you will have Advantage on their next attack roll against another creature before the start of your next turn.

LEVEL 6: BAND COMMANDER

Primal forces now help fuel you on your journeys, granting you the following benefits.

Commander's Strike. When you take the Attack action on your turn, you can replace one of your attacks to direct one of your companions to strike.

When you do so, choose a willing creature who can see or hear you and expend one Bands Directive Die. That creature can immediately use its Reaction to make one attack with a weapon or an Unarmed Strike, adding the Bands Directive Die to the attack's damage roll on a hit.

Commanding Presence. As a Bonus Action you can spend a Bands Directive Die to give another creature within 30 feet of yourself who can see or hear you Blood Tinge.

Rally. As a Bonus Action, you can expend one Bands Directive Die to bolster the resolve of a companion.

Choose an ally of yours within 30 feet of yourself who can see or hear you. That creature gains Temporary Hit Points equal to the Bands Directive Die roll plus half your Hunter Warden level (round down).

LEVEL 14: MASTER THE ENEMY

As an action, you can spend one Band's Directive die to study an enemy and reveal a fatal opening in its defenses.

Choose one creature other than yourself within 60 feet of you that can see or hear you. The first time that creature makes an attack roll before the start of your next turn, a roll of 14 or higher on the d20 counts as a 20.

WARBRINGER

Text.

LEVEL 3: COMBAT INSPIRATION

You can use your wit to turn the tide of battle. A creature that has a Bands Directive die from you can use it for one of the following effects.

Defense. When the creature is hit by an attack roll, that creature can use its Reaction to roll the Bands Directive die and add the number rolled to its AC against that attack, potentially causing the attack to miss.

Offense. Immediately after the creature hits a target with an attack roll, the creature can roll the Bands Directive die and add the number rolled to the attack's damage against the target.

LEVEL 6: EXTRA ATTACK

You can attack twice instead of once whenever you take the Attack action on your turn.

LEVEL 14: WAR CHANT

When a creature that has a Band's Directive die from you takes the Attack action on its turn, it can expend that die to make one additional attack as part of the same action. This additional attack is made in addition to any attacks granted by Extra Attack or similar features.
